

THE COMPETING ROAD

Approval of the Articles of Incorporation.

PERMANENT DIRECTORS ELECTED

No Opposition to the Election of the Eleven Named by the Citizens Committee.

SAN FRANCISCO, February 20.—The subscribers to stock in the San Joaquin valley railroad enterprise held a big and enthusiastic meeting in the Chamber of Commerce this afternoon.

The meeting was pursuant to a call of the Citizens' Competing Railroad Company committee and was for the purpose of giving formal approval to the articles of incorporation and the by-laws heretofore submitted by the committee, and of electing a board of directors and of doing anything necessary to be done on the part of the stockholders in order that the San Joaquin & San Joaquin valley railroad might enter at once upon its legal existence.

It had been contended that Claus Spreckels should preside. He was ill, however, and the honor was accorded to John D. Spreckels, his son. The citizens' committee explained that they had pushed forward the work of soliciting subscriptions until the sums had reached the figure of \$224,000. Having reached that point when the subscription became effective, the committee had called the meeting for the purpose of proposing articles of incorporation and by-laws.

It was explained that all who paid in full of their subscriptions were entitled to vote in the proposed election of incorporation were held. They set forth that the purpose of the company was to incorporate as the San Joaquin and San Joaquin Railroad Company, with a capital stock of \$1,000,000, for the purpose of building a railroad 350 miles in length, extending southerly and easterly from San Francisco to some point in Kern county near Bakersfield.

As anticipated there was no opposition whatever to the articles of incorporation, which, on motion of Leon Sless, were adopted by a unanimous vote. The election of a board of directors was declared to be in order. No opposition was made to the election of the eleven named by the citizens' committee. They are: Claus Spreckels, J. D. Spreckels, W. F. Whittier, John B. Sless, Robert F. Watt, A. H. Payson, Charles H. Haddock, Lewis Gorman, Isaac Upham, Anthony Hayward and Thomas Moore.

By a unanimous vote they were elected to direct the new enterprise and the Bank of California was elected treasurer. The vote represented 17,350 shares. After adopting resolutions thanking the officers of the California Traffic Association and the citizens' committee, the meeting adjourned.

MARK MEETING AT SAN JOSE. SAN JOSE, February 20.—Four citizens gave expression to their earnest desire for a competing railroad to-night.

At the big meeting held in front of the courthouse there were among the speakers representatives of the counties of San Mateo, Santa Clara, San Benito and Fresno, and the town of the addresses plainly told of the determination to do all in their power to secure a line of the valley railroad through this section of the state.

Fully 5000 people filled the stand when, D. M. Dolans, the chairman, called the meeting to order, and when he began the opening address he was greeted with cheers. He dwelt upon the necessity of the people taking immediate action to free themselves from the grasp of the Southern Pacific monopoly, and said the opportunity existed in the projected competing railroad. Speeches were made by Mr. D. M. Dolans, H. D. Munn, W. D. Nichols, J. A. Bonney, J. Martin of South San Francisco, Judge Fitzpatrick of Redwood City, Joseph Hutchinson of Palo Alto, Colonel Bowen Hersey of San Jose, Nicholas Bowden and John Reiter of Fresno.

A resolution was adopted pledging the counties represented to perfect organizations in each county to secure rights of way and all possible subscriptions in order to promote the building of the railroad through the counties.

Will be Allowed to Land.

SAN FRANCISCO, February 20.—The board of health greatly disappointed Dr. Lawler, quarantine officer, today by deciding that Mr. and Mrs. John Bradbury of Los Angeles could come ashore with passengers of the steamer City of Sydney Friday morning. Mrs. Bradbury had been recently exposed to smallpox in quarantine two weeks after the passengers had been allowed to land. Dr. Lawler argued that, as the Bradburys had been more recently exposed to smallpox than the steamer's passengers, there was great danger of their spreading the disease. The board of health, however, thought otherwise, and the Bradburys will now come ashore Friday.

New York Bankers Sued.

SAN FRANCISCO, February 20.—The executors of the estate of Mervyn Donahue, who was a prominent San Francisco capitalist, have brought suit against J. and W. Seligman and Company, and P. N. Lillienfeld, the local agent, to recover 50,000 shares of the capital stock of the San Francisco and North Pacific Coast Company. The shares, which are valued at \$101,000, were deposited with the New York bankers by Donahue to secure certain claims against him. It is alleged that the obligations for which the shares were pledged are due, but that the New York bankers refuse to return the collateral.

Insolvent Millers.

SAN FRANCISCO, February 20.—William Haker and William Hinz, millers, filed an insolvency petition today. Their liabilities are stated to be \$10,000, divided almost equally between the San Francisco banks and New York wholesalers, and their assets are \$32,000 worth of stock.

The Oregon Senatorship.

SAN JOSE, February 20.—Two ballots were taken today for United States senator without change. Both ballots gave Delph A. Hare 10, H. J. Huns 10, Williams 2, Allen 2.

THE HAYWARD TRIAL.

Mrs. Adry Hayward on the Witness Stand.

MINNEAPOLIS, February 20.—Mrs. Adry Hayward was a witness in the trial today. Her testimony simply bore on the question of the time Mrs. Hayward called at Adry's flat on the night of the murder.

Mrs. L. L. Hayward, the mother of the defendant, was then sworn. The first part of her testimony was intended to help establish Adry's alibi. Mrs. Hayward said that Harry came to her room at 7:20 and said he was going out to make a call. At about twenty minutes to 8 o'clock he came in again, hurriedly brushed his hair and went out, saying that he was going to the opera. The forty minutes between these two times is the vital period, for it was in that time, according to Adry's testimony, that Harry put the fatal bullet in the body of Miss Gilling with instructions to drive away and kill her. Mrs. Hayward was next asked about the existence of insanity in her family, but the state at once objected to the question of insanity had not been introduced. The objection was sustained by the court.

"We wish to show at the time previous to his going to Elmer Stewart, and at that time Adry was resting under a duvet."

"Well, suppose he was insane, what then?"

"It would affect his credibility before this jury and his competence to testify."

The court determined as to his competency when he was on the stand, and there was no offer to prove the contrary. Inane persons, especially those who are monomaniacs, are competent to testify," retorted the court.

Mr. Ewing asked a long series of questions bearing on Adry's actions; his jealousy, his unreasoning fears during youth, the medical treatment he had been given, etc., but they were all ruled out.

Another Deer Hunter Killed.

SANTA CRUZ, February 20.—Charles Combs killed Frank Carrol at Loma Prieta this afternoon. The men were hunting deer, when Combs seeing a bush move thought it was a deer and fired. The bullet entered Carrol's heart.

THE APACHE INDIANS

CITIZENS HOSTILE TO THE REMOVAL OF TROOPS.

They Fear the Indians Will Commit Violence to Murder and Pillage as in Times Past.

DESERTE, February 20.—The citizens of Arizona are hostile to the proposition of the war department to remove the troops from San Carlos Indian Agency. San Carlos is under the direction of General McCook, department of Colorado, and only a few months ago it required the presence of soldiers to put down an outbreak of these Indians in which the whites and now one way or the other. What the citizens most fear is, with the troops removed, the Indians will have their principal source of revenue extinguished and they will then drive to desperation by starvation and insufficient clothing and will come upon to murder and pillage settlers and their houses as in years past. Army officers are now a unit in endorsing the proposition of the Washington authorities to take the troops away.

It is claimed that there are now 4000 Apache Indians located near the agency, and that the effect of the proposed removal is hardly realized by the Indians, who therefore have furnished nearly all the fuel, wood, hay and barley consumed by the military, besides finding side for various other products of their farms. Notwithstanding all these revenues the Indians have suffered for the necessities of life, and the majority have had to go hungry for several days in the week. The legislature of Arizona has sent a petition to congress asking that body to use its influence to have the war department rescind the order of removal.

Frederick Douglass Dead.

WASHINGTON, February 20.—Frederick Douglass, the noted freedman, orator and diplomat, died a few minutes before 7 o'clock tonight at his residence at Anacostia, a suburb of this city, of heart failure. His death was entirely unexpected as he had been enjoying the best of health for several days in the week. He attended the convention of the women and edited with Susan B. Anthony and others of the leading members. Mr. Douglass leaves two sons and a daughter, the children of his first wife. His second wife, who is a white woman, survives him.

The Markets.

SAN FRANCISCO, February 20.—Wheat: Firm; December, 94½; May, 88c. Barley: Steady; December, 94½; May, 75½. Corn, 11.32½. Bran, 13.50 a ton.

Cable Road to be Sold.

OAKLAND, February 20.—An order of court was issued today, directing the sale of the Piedmont cable railroad in this city under the foreclosure of a mortgage in favor of the San Francisco Tool Company for over a million dollars.

A Dream Pointed the Way.

The Psychological society will investigate a remarkable incident that occurred in the Scottish mining district of Dun Ruar on New Year's day. A miner, Donald McFarlane, disappeared on Sunday. There was no trace of him after a two days' search. On Tuesday Robert Lark, an old man who has the reputation of possessing second sight, and who is a brother-in-law of McFarlane, fell asleep and dreamed that he saw the missing man in a particular part of Almond water, which is some miles distant. Mentioning this to the neighbors, they went to the place, saw the footprints of the missing man in the snow, and eventually found the man himself hanging in the water, which is three feet deep, with his frozen around him. He was dead.—London Standard.

More Cautious Than Dangerous.

A few days ago Mrs. John Harriott went out on the prairie to look after some young stock, and on her return home was followed by seven wolves. When she saw them coming, she ran with all her might. Suddenly she stopped on a stump, and they again followed her. The wolves followed her for a certain distance behind until she reached home.—Inkster (N. D.) Tribune.

IN THE LEGISLATURE

The Anti-Cigarette Bill Passed.

CONTESTED ELECTIONS REPORTS

A Tussle in the Senate on the Logging Camp Bill—Bills Introduced.

SACRAMENTO, February 20.—Senator Langford's retrenchment measure repealing that section of the statutes of 1883 providing for the maintenance of came up for passage and resulted in a spirited debate between the economists and the liberals. The repeal of the law was favored by the finance committee, and the assembly ways and means committee left out all the appropriations for indigent with the feeling that the law would be repealed. It was pointed out that the appropriation required would amount to fully \$800,000, meaning a tremendous tax on the whole state, and the proposed repeal would effect a saving of fully that sum. The repeal bill was finally passed—yeas 43, nays 22. Swiler gave notice of reconsideration.

The anti-cigarette bill offered by Senator Goodford, and already passed by the senate, raised a commotion when it came up for passage, but was finally passed by a vote of 34 yeas to 12 nays, and will now go to the governor for his signature.

The San Francisco offered a resolution which went to the committee on commerce and navigation appointing Colonel G. H. Mendell and W. H. Hauer, United States engineers, a special committee to examine the depot foundations and report to the assembly. The report from the committee on commerce and navigation decided that Divine, Merrill and McCarthy of San Francisco are elected to seats, but asked that the county clerk of Alameda county produce the ballot in the contest of Collins against McDonald.

Among the new bills introduced was one by Hallford providing counsel for indigent defendants in felony cases. By Twigg, providing for the inspection of steam boilers.

DOINGS OF CONGRESS

THE SILVER BILL CALENDARED

IN THE SENATE.

The Hawaiian Cable Bill Taken Up in the House but No Action Reached.

WASHINGTON, February 20.—Mr. Chandler created something of a sensation in the senate today by outlining some important steps to be taken by the next congress, including a congressional investigation of the recent purchase of gold bonds by the United States. The speech came unexpectedly as an incident to the discussion of the Indian appropriation bill.

During the early hours of the day the bill made its exit from the senate. Mr. Jones of Arkansas, in charge of the measure, announced that they would make no further effort to press it at the present session.

The disposal of the measure was emphasized by the decisive vote of 55 to 12. Mr. Thurston, in charge of the Indian appropriation bill, the effect of which was to displace the silver bill and send it back to the calendar.

Mr. Wolcott's resolution, declaratory of the silver bill, but postponing action, also went to the calendar without any action. It was discussed briefly today. Mr. Higgins opposed it as meaningless.

DOUBLE ABDUCTION.

FATHER AND MOTHER TAKE TURN ABOUT

Stealing Their Four Year Old Son.

The Court Refused to Issue a Warrant.

SAN FRANCISCO, February 20.—A sensational double abduction case came to light this afternoon when Alfonso Lallemand applied at the police court for a warrant for the arrest of his wife, Angel Lallemand, whom he charges with stealing their 4-year-old son, George. Lallemand is a wealthy grocer and liquor dealer. Husband and wife parted two months ago. Mrs. Lallemand taking her little boy with her, and went to live at the home of a friend. Nine days later the husband went to the house where Mrs. Lallemand was, and peering through the window, espied the boy with a nurse in the front room. He at once kicked a hole in the window, and captured the nurse-girl. He then tore the weeping child from her arms and led the house in the same manner he had entered. Lallemand took the boy to the house of his sister, Mrs. Garmine, where Mrs. Lallemand was allowed to pay an occasional visit to her son in the presence of a third person.

Mrs. Lallemand discovered that her husband sometimes took the little one to his place of business and set about in a mean manner of getting possession of the child, and watched her opportunity to hustle the child into a back in waiting.

She sent a boy into the store to purchase an article that she knew was kept there and while her husband was engaged picked up the child in his arms, but the child commenced to scream and the father heard the cries and after the disappearance of the child was unable to locate it. For the past three days he has been searching for it, but had been unsuccessful. Today he appeared for a warrant but was refused.

Grudge Against Cleveland.

Stephen Slavadin, whom a jury convicted for vagrancy day before yesterday, was yesterday sentenced to twenty days in jail by Recorder Clark. Stud Slavadin is a man of some means, and claims to know personally. He says very emphatically that he will not work on the rock-pile. He is no doubt mildly insane.

General Muller, Colonel Hay, Dr. Miller and Sergeant Freeman of this city will not be present for Governor Dild at the review of the guards and United States troops at the Presidio on the 23d.

PYTHIAN ANNIVERSARY

Celebrated by the Local Pythian Lodges.

Thirty-one years ago witnessed the birth of the great fraternal order known as the Knights of Pythias. In that narrow space of time, nearly a generation, this order, with the motto of "friendship, charity and benevolence," has grown from a handful of men to the present number of over 500,000 Knights in the United States, Canada, Mexico and the Hawaiian Islands.

Fresno has two lodges of the Knights of Pythias, and during the short career of the order in this city, thousands of dollars have been paid to the sick and for the care of the widow and orphan; acts of charity, performed behind closed doors, not advertised to the world, have been accomplishing much good.

On invitation of the local Pythian lodges, Grand Chancellor Carl E. Linday of Santa Cruz was present, accompanied by Grand Prelate, Colonel C. F. McElshen of Truckee, commanding Second Regiment, U. S. A. Visiting delegations of Knights were also present from Hanford, Tulare, Visalia, Selma, Ranger, Mendota and Madera. Grand representative Stanton L. Carter, with Vice Grand, Chancellor George H. Church, helped to entertain the visiting delegations. After visiting the lodge the members adjourned to the banquet room and adj. to do justice to the viands spread for the occasion. After disposing of the solids, the following toasts were responded to, East Chancellor, Dr. E. C. Dunn acting as toastmaster.

"Our visiting Grand Officers," East Grand Chancellor George H. Church, "Grand Lodge of California," Grand Chancellor C. F. McElshen, "Supreme Lodge and Anniversary of the Order," Supreme Representative Stanton L. Carter.

Visiting Lodge No. 17, "Past Chancellor H. L. Lynch," "Fresno Lodge No. 135," Past Chancellor O. P. Toller, "Wagona Division No. 1," U. S. E. P. Captain F. W. Fisher.

It was just midnight before the last toast was given, and the members adjourned to their homes, pleased with the entertaining and instructive visit from their grand officers.

WARD WALLISTER'S VIEWS

Really Thinks a Gentleman May Engage in Certain Lines of Business.

During the period of our civil war society became utterly demoralized, and gold speculation, and government contracts came to the surface by their reckless extravagance, says Ward Wallister in his wayward in the New York World. Then came the period of railway speculation, many of them genuine railway robbers, as they acquired fortune in a dishonest and reckless manner, but under our modern tendency we do not care how a man acquires his fortune so long as he is clever enough to retain the price won.

At present we are just coming to the height of the great speculation. Speculation has changed its old meaning to manage one of our great dry goods, grocery or tailoring establishments requires the ability of a general. The modern speculator is no longer cringing and servile, but holds up his head as high as the man who patronizes him.

In the second generation the old time speculator which formerly existed in gold, and undisciplined in a few years the millionaire proprietors of our great highway and Sixth avenue stores were knocking and demanding admission to society's exclusive functions.

There is undoubtedly a set here who might be termed reactionaries who fight against this impending change, but our old family element, I am afraid, must content themselves with their meetings of Colonial Dames, Colonial Wars and other similar societies, and acknowledge that "the old order changeth."

The question now arises: Can a tradesman be a profitable gentleman? I reply unquestionably, yes.

The idea of what constitutes a gentleman is very varied, and a definition is perhaps different in America from the definition in England. In general sense in this country it applies to every one who is not a blackguard, as one workman will say to another, "Be a gentleman," or "Behave yourself like a gentleman."

But of course this is not the idea that I propose to discuss. The point is: Is it possible for a man engaged in trade to have all the instincts and feelings of a true gentleman, or does the continual striving after gain give a shabby and commercial tinge to his whole nature?

This depends upon the man himself. In London a man in "the city" is not necessarily found in the drawing rooms of the aristocracy, the only exceptions being where a man of good family, usually a younger son, has secured a good berth for himself, possibly with very little to do but draw his salary, or when a young man has inherited from his father a business which is carried on for him by his partners, but undoubtedly a man is a bit ashamed there of being in trade, and the army, the navy, the church and diplomacy are considered a more correct career for a young nobleman or gentleman if his means will permit.

In America all this is different. A young man on finishing his education is generally very anxious to get to work and find some opportunity to commingle a business career. Our young men of family and fortune rarely think of the army, navy and diplomacy and still less of the church. Not that these careers do not contain many estimable persons, but they are certainly not regarded with as much favor as the legal profession or as commerce, banking, engineering or mining. Take, for instance, young men after completing their education in England and America—they are at that point of their life much alike—and then take them 15 years later. Are the Americans any the less true gentlemen for having spent that time in the rush to secure success, or does it blunt their finer sensibilities?

The Duke of Argyll answered this question conclusively, for he put all his younger sons in trade.

They are not necessarily any the less true gentlemen.

ROBBED THE BANK.

A Faro Dealer Relieved of His Cash

BY A MASKED INTRUDER

He Secures \$340 in Gold But Does Not Care For the Silver.

Fresno, February 20.—Congress hall, one of the old time establishments, was entered by a masked man last night who held up the faro table.

The game was in progress when George Huston, the dealer, saw a fellow enter by a side door with a mask covering his face below the eyes. Huston thought some practical joker was trying to have a little fun, and when the robber covered him Huston pushed the gun aside. The robber did not utter a word, but shoved the gun against Huston's breast and with his free hand took about \$340 in gold, which he put in his pocket. He did not take all the gold and \$500 or \$600 in silver was not molested. These playing at the game did not move while the robbery was being committed.

George Green, who was in an adjoining room, heard the noise made by several twenties which the robber dropped. He thought at first there was a row, but a minute later learned the trouble, and seizing a shotgun loaded with buckshot started for the robber. The side door had just closed when the bartender rushed in. He fired first as the robber was turning the corner, but missed his mark. Had he learned of what was transpiring, Green could have shot the robber dead as he was pocketing the money. The officers have not the slightest clue.

WARD WALLISTER'S VIEWS

Really Thinks a Gentleman May Engage in Certain Lines of Business.

During the period of our civil war society became utterly demoralized, and gold speculation, and government contracts came to the surface by their reckless extravagance, says Ward Wallister in his wayward in the New York World. Then came the period of railway speculation, many of them genuine railway robbers, as they acquired fortune in a dishonest and reckless manner, but under our modern tendency we do not care how a man acquires his fortune so long as he is clever enough to retain the price won.

At present we are just coming to the height of the great speculation. Speculation has changed its old meaning to manage one of our great dry goods, grocery or tailoring establishments requires the ability of a general. The modern speculator is no longer cringing and servile, but holds up his head as high as the man who patronizes him.

In the second generation the old time speculator which formerly existed in gold, and undisciplined in a few years the millionaire proprietors of our great highway and Sixth avenue stores were knocking and demanding admission to society's exclusive functions.

There is undoubtedly a set here who might be termed reactionaries who fight against this impending change, but our old family element, I am afraid, must content themselves with their meetings of Colonial Dames, Colonial Wars and other similar societies, and acknowledge that "the old order changeth."

The question now arises: Can a tradesman be a profitable gentleman? I reply unquestionably, yes.

The idea of what constitutes a gentleman is very varied, and a definition is perhaps different in America from the definition in England. In general sense in this country it applies to every one who is not a blackguard, as one workman will say to another, "Be a gentleman," or "Behave yourself like a gentleman."

But of course this is not the idea that I propose to discuss. The point is: Is it possible for a man engaged in trade to have all the instincts and feelings of a true gentleman, or does the continual striving after gain give a shabby and commercial tinge to his whole nature?

This depends upon the man himself.
